EDUCATION

Ecole Supérieur DE VINCI

MSc Cyber Security and Crisis Leadership M2

International University of Agadir

Engineering Degree in Computer Science

Paris, France

Graduation Date: Oct 2026

Agadir, Morocco

Graduation Date: July 2025

WORK EXPERIENCE

Ayming

Cybersecurity Analyst

Paris, France

April – October 2026

- Led a technical POC comparing CrowdStrike and SentinelOne through simulated cloud-based attacks, measuring each tool's detection and response capabilities to guide leadership's strategic decision on future cyber-protection
- Contributed to the company's ISO 27001 compliance program by leading a PDCA-based audit focused on the Check phase, structuring governance documentation and risk review, improving compliance posture by 35%

VOID

Devops Engineer

Agadir, Morocco

March – August 2025

- Creating custom Docker images and containerized deployment pipelines for **NextJS/Drupal** projects, ensuring high availability and security for critical operations for financial clients.
- Configured a physical server with **Docker/EasyPanel** and synchronized it with a preprod server in another city/office.

Orange Maroc

Technical Project Lead

Agadir, Morocco

July - Sept 2024

- Led a team of **6** to develop a smart IoT device: **ODAC**, to monitor health metrics with **AI**-driven threat detection, resulting in a **30%** reduction in response time to medical emergencies.

OCP Benguerir

Cybersecurity Engineering Intern

Benguerir, Morocco

July - September 2024

- Designed secure architecture for an intern ERP solution: on-call scheduling web application, which automated rotations, reducing scheduling errors by **20%** and increasing transparency for **100+** employees.

LECOURS CONSULTING STARTUP

Junior Software Engineer Intern

Agadir, Morocco

July - August 2023

- Collaborated with the development team tasked with designing and implementing a web application aimed at fully digitizing and streamlining the business creation process in France.

PROJECT EXPERIENCE

SAYO ANTIVIRUS

April - June 2024

- Architected a signature-based antivirus system by implementing **YARA** rules for pattern matching and integrating **VirusTotal** API, achieving malware detection across multiple scanning modes (quick, full, and scheduled scans).
- Developed a comprehensive security solution combining machine learning model trained on malware signatures with **Python/Tkinter** GUI interface, enabling both manual and automated threat detection with quarantine capabilities.

SABIB

January - June 2024

- Founded and led a smart water management startup by directing a team of 5 engineers and implementing IoT architecture (**Fritzing**, **C**), resulting in a successful product showcase reaching 100+ potential customers and 400+ waitlist signups.
- Engineered an AI-driven irrigation monitoring system by analyzing farmers' water consumption patterns across 3 test fields, resulting in 35% water conservation for crop irrigation

LEADERSHIP EXPERIENCE

Google Developer Groups

Team Leader

Agadir, Morocco

Oct 2023 - Aug 2025

- Nominated Leader and member of the central committee at GDG Universiapolis, giving talks creating educational content, podcasts, and workshops that strengthened the club's learning ecosystem and reached over 500 student members.

SecPolis Club

Founder & Team Leader

Agadir, Morocco

Oct 2024 - Aug 2025

- As the founder of SecPolis, the official cybersecurity club representing my university, I built a team of **20+** passionate students and led our participation in over **10 CTF competitions**.
- Organized internal CTF competitions to hone SecPolis members' cybersecurity skills, while also hosting open security classes for **200+** university students, fostering enthusiasm for the field and imparting fundamental concepts.

CERTIFICATIONS

CCNA: Introduction to Network: Feb 2023

Cybersecurity Fundamentals from IBM: Aug 2024

Google Cybersecurity By Google: Sept 2025

Professional Cloud Security Engineer by Google: July 2024

Jr Penetration Tester from THM: January 2025

Certified API Security Analyst: April 2026

SOFT SKILLS

- Critical Thinking - Client Communication - Problem-Solving - Innovation - Resilience - Team Player
